

2009 Directory of Alabama Public Shooting Ranges

This directory was made possible largely because of hunters. The Alabama Division of Wildlife and Freshwater Fisheries operates on revenues derived through the sale of hunting and fishing licenses, as well as Federal taxes and duties which sportsmen pay on hunting, fishing, and boating equipment.

Federal funds are provided to the Division of Wildlife and Freshwater Fisheries through the Federal

Aid to Wildlife Restoration Act. Congress enacted this program in 1937 at the request of the nation's hunters. The revenue is used to operate wildlife management areas, conduct wildlife research and surveys, hunter education, species restoration, and many other activities of the Division of Wildlife and Freshwater Fisheries. The symbol shown above left is displayed on all projects that receive Wildlife Restoration funds.

The Department of Conservation and Natural Resources does not discriminate on the basis of race, color, religion, age, gender, national origin, or disability in its hiring or employment practices nor in admission to, access to, or operations of its programs, services, or activities.
